

-30°C Biomedical Freezer

DW-30L278

DW-30L508

Scope of Application:

Suitable for blood banks, hospitals, disease control centers, research institutes, electronic, chemical and other industries. Used for the cryopreservation of plasma, biologics and other products, and cold tests for components and materials.

Innovative Design

- ◉ Green and environmentally friendly
- ◉ Superior temperature uniformity
- ◉ High-efficiency and energy-saving compressor and system
- ◉ Low sound level

Haier Biomedical Co.,Ltd.

No.280 Feng Yuan Road, High-tech Zone,

Product Advantages

High-efficiency and energy-saving compressor and system

The industrial grade energy-saving compressor and optimized cooling system reduces the power consumption by more than 55% to achieve -30 °C compared with older models.

Low sound level

Several design optimisations have reduced the sound level by more than 5dB and has eliminated high-pitch noise.

Green and environmental friendly

- Hydrocarbon refrigerant compressor and HC refrigerant is a green refrigeration technology with a very low global warming potential.
- Built with isopentane foam polyurethane insulation, the series complies with European RoHS Directive.

Superior temperature uniformity

The evaporator-shelf design produces a faster cooling process and a more uniform temperature distribution. The temperature uniformity at characteristic points is $\pm 4^{\circ}\text{C}$.

Product Features

PS interior, painted steel plate exterior, rust-proof, and easy to clean

Double lock design, multi-user, independent management, latch-lock high security

10 interior plastic drawers with labeling rail for ease of organizing and identifying

Microprocessor temperature control, LCD/LED temperature display, with display accuracy being 0.1°C

Aluminum alloy handle, stable and durable

Standard casters and leveling legs for easy of maneuvering and leveling

DW-30L508

Microprocessor control system

- Microprocessor temperature controller, LCD/LED temperature display, display accuracy at 0.1°C . Adjustable temperature setting from -10°C to -30°C .
- Multiple alarm functions including high temperature alarm, low temperature alarm, sensor error alarm and power failure alarm.
- Sound and flash alarm
- Alarm lasts for more than 24 hours after power failure

Access port

An access port is standard to allow for external test probes.

Excellent temperature-retaining ability

High-efficiency insulation and a double seal design delivers improved temperature performance, energy efficiency, and system reliability.

Lock

The lock latch design provides an extra level of security.

Recorder

Optional chart temperature recorder available
